Maynooth, Greater Dublin, Ireland

14th International Conference

WWW/Internet 2015

The 14th International Conference on WWW/Internet was held in Maynooth, Greater Dublin, Ireland (during 24 to 26 October, 2015).

This conference was organized by the International Association for Development of the Information Society (IADIS) and co-organized by the Maynooth University.

Co-organized by:

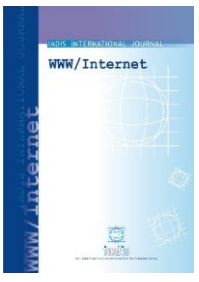
Maynooth University
National University of Ireland Maynooth

Once again, the WWW/Internet conference tried to address the main issues of concern within WWW/Internet. WWW and Internet had a huge development in recent years. Aspects of concern are no longer just technical anymore but other aspects have arisen. This conference aims to cover both technological as well as non-technological issues related to these developments. Its broad areas of interest were Web 2.0, Semantic Web and XML, Applications and Uses, Services, Architectures and Web Development and Research Issues.

This edition had about 89 submissions from more than 24 countries. Each submission was anonymously reviewed by an average of four independent reviewers, to ensure the final high standard of the accepted submissions. The final result was the approval of 17 full papers, which means that the acceptance rate was 19%. A few more papers have been accepted as short and reflection papers, posters/demonstrations and doctoral paper.

Extended versions of the best papers were selected to be published

- the IADIS International Journal on WWW/Internet (IJWI). ISSN: 1645-7641



The conference, besides the presentation of full papers, short papers, reflection papers, poster presentations and a doctoral paper, also featured one keynote presentation presented by Professor Luc Moreau, University of Southampton, UK.

Keynote Presentation:

"ENABLING PROVENANCE ON THE WEB: STANDARDIZATION AND RESEARCH QUESTIONS"
"

by Professor Luc Moreau, University of Southampton, UK

Once again the Conference offered an opportunity to all their participants to discuss with success the most significant aspects regarding the theme Information Systems. It served as a forum that gathered researchers, practitioners, students and anyone that was working or studying in the field of the Information Systems.

The WWW/Internet Conference proceedings 2015 was published in Book (ISBN: 978-989-8533-44-9) by IADIS Press.
