The 15th International Conference on WWW/Internet was hosted in Mannheim, Germany (during 28 to 30 October, 2016).

This conference was organized by the International Association for Development of the Information Society (IADIS) and co-organized by the University of Mannheim.

Co-organized by:

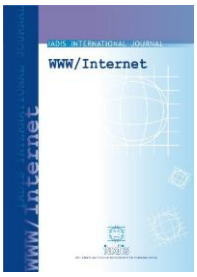
UNIVERSITY OF MANNHEIM

Once again, the WWW/Internet conference tried to address the main issues of concern within WWW/Internet. WWW and Internet had a huge development in recent years. Aspects of concern are no longer just technical anymore but other aspects have arisen. This conference aims to cover both technological as well as non-technological issues related to these developments. Its broad areas of interest were Web 2.0, Semantic Web and XML, Applications and Uses, Services, Architectures and Web Development and Research Issues.

The 2016 edition had 97 submissions from more than 23 countries. Each submission was anonymously reviewed by an average of four independent reviewers, to ensure the final high standard of the accepted submissions. The final result was the approval of 27 full papers, which means that the acceptance rate was 28%. A few more papers have been accepted as short and reflection papers, posters/demonstrations and panel presentation.

Extended versions of the best papers were selected to be published

- the IADIS International Journal on WWW/Internet (IJWI). ISSN: 1645-7641



The conference, besides the presentation of full, short and reflection papers, a panel session and poster presentations also featured one keynote presentation from internationally given by Prof. Miriam Foeller-Nord, Hochschule Mannheim, Germany.

Keynote Presentation:

"THE INTERNET OF THINGS – BOON AND BANE OF THE MODERN WORLD?"

by Prof. Miriam Foeller-Nord, Hochschule Mannheim, Germany

Once again the Conference offered an opportunity to all their participants to discuss with success the most significant aspects regarding the theme Information Systems. It served as a forum that gathered researchers, practitioners, students and anyone that was working or studying in the field of the Information Systems.

The WWW/Internet Conference proceedings 2016 was published in Book (ISBN: 978-989-8533-57-9) by IADIS Press.
