The 17ᵗʰ International Conference on WWW/Internet was hosted in Budapest, Hungary (during 21 to 23 October, 2018).

This conference was organized by the International Association for Development of the Information Society.

The WWW/Internet conference tried to address the main issues of concern within WWW/Internet. WWW and Internet had a huge development in recent years. Aspects of concern are no longer just technical anymore but other aspects have arisen. This conference aims to cover both technological as well as non-technological issues related to these developments. Its broad areas of interest were Web 2.0, Semantic Web and XML, Applications and Uses, Services, Architectures and Web Development and Research Issues.

The 2018 edition was published jointly with the 15ᵗʰ International Conference on Applied Computing. These events received 235 submissions from more than 36 countries. Each submission was anonymously reviewed by an average of four independent reviewers, to ensure the final high standard of the accepted submissions. The final result was the approval of 40 full papers, which means that the acceptance rate was 17%. A few more papers have been accepted as short and reflection papers and posters/demonstrations

Extended versions of the best papers were selected to be published

❖ the IADIS International Journal on WWW/Internet (IJWI). ISSN: 1645-7641

❖ the IADIS International Journal on Computer Science and Information Systems (IJCSIS). ISSN 1646-3692.

Besides the presentation of papers, the 2018 event also included one keynote presentation presented by Dr. Róbert Lovas, Deputy Head of Laboratory, Laboratory of Parallel and Distributed Systems, Hungarian Academy of Sciences, Hungary.
Keynote Presentation:

"NEW TRENDS OF COMPUTING PLATFORMS: CONVERGENCE VS. DIVERSIFICATION"

by Dr. Róbert Lovas, Deputy Head of Laboratory, Laboratory of Parallel and Distributed Systems, Hungarian Academy of Sciences, Hungary

Once again the Conference offered an opportunity to all their participants to discuss with success the most significant aspects regarding the theme Information Systems. It served as a forum that gathered researchers, practitioners, students and anyone that was working or studying in the field of the Information Systems.

The WWW/Internet Conference proceedings 2018 was published in Book (ISBN: 978-989-8533-82-1) by IADIS Press.
